Hi Donald,

Thank you for sharing your interest in People St with us! This e-mail is to follow up on your inquiry regarding a Parklet on the sidewalk adjacent to the business at 8736 S. Sepulveda Boulevard.

LADOT's People St program is an application-based, community-design approach to implementing Plaza and Parklet projects on underutilized or redundant streets. This "street space to people space" approach means Parklet and Plaza projects implemented through the People St program can only be installed on the street's roadbed, not on the sidewalk.

Installing a Parklet where a parking space(s) used to be accommodates greater levels of pedestrian activity by creating an extension of the sidewalk. If you and Westchester Town Center BID are interested in transforming a parking space or two into a public space for people, take a look at our detailed site location criteria and application process part of our Parklet Application Manual (accessible at: <[peoplest.lacity.org/parklet](http://peoplest.lacity.org/parklet)>.)

If you have more detailed questions about the Parklet Application process as it relates to your specific site, do not hesitate to e-mail me at <[peoplest@lacity.org](mailto:peoplest@lacity.org)>.

Thanks again!

All the best,  
Karina Macías
